## **OUR MISSION AND VISION**

*A more meaningful life for the many, providing personal empowerment processes for people of all ages (at prices most can afford).*

### **How We Fulfill our Mission in the Your Life Your Way Academy**

1. Offering a DIY Personality Profile so people get to know themselves in a fast and fun, precise and profound way.
2. Offering One on One Coaching so those wanting to accelerate their growth can get personalised guidance through their Profile, decision making & planning.
3. Offering a Facilitator Certification Program to help Coaches and Trainers future proof their business by offering Human Transformation to their clients (not just more tech or AI). The intention is to expand the Your Life Your Way Coaching Methodology™ around the globe over the next 5 years. The Facilitators will take over One on One Coaching so Diana can dedicate herself to this Program only.

### **Here are the Precise Programs and Packages You can Promote**

- The Best You Yet - a DIY 21 Day Challenge with the Personality & Needs Profile®.
- One on One Coaching Packages of either 3 Hours, VIP 6 Week and VIP 3 Months.
- The Phase One of Facilitator Certification learning this Coaching Methodology as well as the Qualification Coaching Session as a prerequisite.

There is a dedicated section for each of the above programs and packages with details for the typical “ideal client”, what they struggle with, what they desire for themselves and their life, swipe files and free offers ideas to get a colder audience warmed up.

FYI: The word “Affiliate” means you haven’t experienced the Methodology but you love sharing meaningful, life changing resources with a broader audience. The word “Referral” means you’ve have experienced Coaching and are a happy client who wants to naturally share your experience with others so they too can benefit.

## **PAIN POINTS OUR CLIENTS STRUGGLE WITH**

- **Decision Paralysis:** They freeze when faced with choices, fearing making the wrong move and causing long term setbacks.
- **Overwhelm from Information Overload:** They consume lots of self help content but feel buried under contradictory advice, making it hard to focus on what matters.
- **Procrastination and Avoidance:** Despite knowing what they “should” do, they put off important actions, leading to mounting pressure and regret.
- **Feelings of Being Behind:** They compare themselves to peers who seem ahead in career or financial success, triggering anxiety and self doubt.
- **Lack of Clear Self Understanding:** They struggle to pinpoint what their true talents and passions are, leaving them directionless.
- **Emotional Exhaustion:** The mental tug-of-war between hope and fear drains their energy and motivation.
- **Imposter Syndrome:** Doubts about their abilities make them hesitate to pursue opportunities or advocate for themselves.
- **Feeling disconnected from their “true self”** behind all the roles, titles, and responsibilities.
- **Experiencing menopausal symptoms** (e.g., hot flashes, mood shifts, brain fog) that undermine energy and confidence.
- **Questioning whether the spiritual tools** they have tried (meditation, mindfulness) are really helping or just surface level fixes.
- **Wrestling with indecision** about whether to pivot careers, pursue passion projects, or simply continue on the current path.
- **Loneliness or isolation** in the experience of midlife shifts, feeling misunderstood by friends or family.
- **Anxiety about aging** and fear of losing relevance or vitality.
